SKILLS AND ABILITIES

Technical Skills:

- HTML, CSS, JAVA, C, C++
- Operating Systems: Windows, macOS
- Troubleshooting: Hardware and software issues, network problems
- Customer Support: Strong interpersonal and communication skills

Soft Skills:

- Strong problem-solving and analytical abilities.
- Excellent communication and interpersonal skills.
- Quick learner with a passion for staying updated on the latest technology trends.

INTERNSHIP

Techno Tharanga technologies |Tranee Engineer

Sept 2022- Oct 2022

Project Name: TKHomeSys

- <https://www.letsout.in/#>
- Six -week internship as a trainee student on WEB APPLICATION DEVELOPMENT and worked on ongoing project.
- Key Skills: HTML, CSS, JAVA, REACT.JS
- Tool: Visual Studio Code.

PROJECT

Millimeter-Wave Dielectric Resonator Antenna for Breast Tumor Detection

- <https://ieeexplore.ieee.org/document/10199570>
- Key Skills: Cylindrical dielectric resonator antenna, Millimeter-wave frequency, S-parameter
- Software Tool: CST Tool In this project, we have designed Millimeter-Wave Dielectric Resonator antenna to have an understanding of detection of breast cancer.

Voice Recognition Based Wireless Industrial Automation

- Key Skills: Arduino UNO, Bluetooth, C Programming, Relays
- Software tool: Arduino UNO
- The he Bluetooth module and relay circuit are connected to the Arduino. Then we need to launch the android-based application- "AMR_voice" on our Smartphone. The application can orally be instructed by the user to control an appliance ON/OFF.

EDUCATION

SIDDAGANGA INSTITUTE OF TECHNOLOGY

2019-2023

B.E | ELECTRONICS AND TELECOMMUNICATION | C.G.P.A: 7.5
